SUMMER PROGRAM

for Global Sustainable Governance

political economy, earth science, environment,
sustainability, technology, sciences, culture and society

About GSG Program

Local faculty and visiting faculty from partner universities in other countries will conduct courses in the GSG program. The week-long, intensive program is designed for the senior/fourth year undergraduate level and entry/first-year graduate level, with the content spanning topics in political economy, earth science, environment and sustainability, technology and sciences, and culture and society.

How to join the adventure

- **Expense**

NCHU will cover all expenses, including meals, accommodation, and fees for academic and extracurricular activities.

- **Application**

Please submit the application form and all supporting documents by following the link: <https://reurl.cc/l91RxY>

The application form can be downloaded by following the QR Code or this link: <http://clp.nchu.edu.tw/>

2022 NCHU Sustainability Workshop

August 22 - September 7, 2022 Online Course

**this year, we'll talk about
Carbon Reduction**

About Sustainability Workshop

This year, we'll talk about Carbon Reduction. General ideas include carbon accounting & tax, carbon reduction at industrial and company levels, and policies to reduce carbon footprints in various countries.

- **Invaluable Opportunities**

Enjoy a variety of curricular activities, including lectures, discussion sessions, forums, and group competitions.

- **Facilitators**

Dean Rogier Busser Amsterdam School of International Business (AMSIB)

Guest speakers (from Europe and Asia) and Biz speakers (from local enterprises) will also join us.

- **Turing Certs (Blockchain Certificate)**

Everyone who finishes the workshop will receive proof of completion.
